Informatics graduate from Diponegoro University with practical experience across data engineering, machine learning, and full-stack web development. Built financial data pipelines for 3 state-owned entities, developed an LLM-enhanced stock price forecasting system, and delivered interactive dashboard applications for data-driven decision-making. Skilled in data workflow design, predictive modeling, system integration, ETL pipeline development, and production-oriented web application development.

Work Experiences

PT Biro Klasifikasi Indonesia (BKI) - Tanjung Priok, Jakarta, Indonesia Jan 2025 - Mar 2025

Data System Engineer Intern

- Built PySpark ETL pipelines to integrate monthly financial data from 3 state-owned entities: BKI, SUCOFINDO, and Surveyor Indonesia.
- Developed a 12-stage data workflow covering data ingestion, master-data consolidation, chart-of-account transformation, and financial reporting preparation.
- Generated structured Balance Sheet and Profit & Loss datasets using PySpark, PostgreSQL, SQL, and JDBC to support monthly financial reporting.

PT Aluesa Global Digitek - Bandung, Jawa Barat, Indonesia — Remote Jan 2025 - Mar 2025

Junior Software Engineer Intern — Odoo ERP Development

- Configured 5 Odoo ERP modules, including accounting, invoicing, asset management, expenses, and reporting.
- Migrated financial records across assets, expenses, and accounting categories while validating data accuracy.
- Built dashboard reporting filters and data-mapping workflows to support financial report generation.

Prima Insan Mulia Hospital - Remote, Indonesia Oct 2025 - Dec 2025

Freelance Web Developer — ICU Monitoring SIMRS

- Built the frontend of a 24-hour ICU patient-monitoring system using Next.js, React, TypeScript, and Tailwind CSS.
- Developed 5 clinical dashboard modules covering hemodynamic monitoring, clinical instructions, invasive equipment, nurse planning, and patient progress tracking.
- Integrated 26 service-layer API calls across 7 modules to deliver real-time per-bed patient data and reduce manual paper-based tracking.

Universitas Diponegoro - Semarang, Indonesia Aug 2023 - Jul 2024

Laboratory Assistant

- Taught programming fundamentals and algorithms to 30 undergraduate students across 2 academic terms.
- Led 11 lab sessions per term and supported students through mentoring, assignment review, and code feedback.

Education Level

Diponegoro University - Semarang, Jawa Tengah, Indonesia Aug 2022 - Jun 2026

Bachelor of Informatics, 3.52/4.00

- Completed a thesis on stock price forecasting using Temporal Fusion Transformer and LLM-based news sentiment features for Indonesian blue-chip stocks.

Organization

Ikatan Mahasiswa Riau — Diponegoro University - Semarang, Indonesia Aug 2024 - Jul 2025

Expert Staff, Mikatan Division

- Coordinated basketball-related activities under the Mikatan Division to support IKMR members' sports interests and participation.
- Assisted in organizing basketball training, internal matches, and team coordination for student community activities.

Skills & Certifications

- Technical:** Python, SQL, TypeScript, PySpark, PostgreSQL, React.js, Next.js, Node.js
- Language:** Indonesian — Native; English — Professional Working Proficiency
- Interest:** Data Engineering, Machine Learning, Full-Stack Development, Financial Technology
- Certifications:** IBM Cognitive Class, Alibaba Cloud, Dicoding Indonesia, Oracle, MySkill.
